

Exponencial::execute

Logistic::execute

Flow::getTarget

```
graph LR; A[Exponencial::execute] --> C[Flow::getTarget]; B[Logistic::execute] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two boxes stacked vertically. The top box is white with a black border and contains the text 'Exponencial::execute'. The bottom box is also white with a black border and contains the text 'Logistic::execute'. To the right of these two boxes is a single box, shaded gray with a black border, containing the text 'Flow::getTarget'. Two blue arrows point from the right side of the left boxes to the left side of the gray box. The top arrow originates from the right side of the 'Exponencial::execute' box, and the bottom arrow originates from the right side of the 'Logistic::execute' box.
